---

The General Government Section includes departments, commissions and offices responsible for oversight of distinct policy areas that are not easily consolidated into other oversight areas such as ensuring peace officer competence, reasonable public utility rates, food and agricultural issues, and services to veterans. Additionally, this Section includes issues that are statewide in nature such as lease/revenue issues, bonds, and local government issues.

## 8120 Commission on Peace Officer Standards and Training

The Commission on Peace Officer Standards and Training is responsible for raising the competence level of law enforcement officers in California by establishing minimum selection and training standards, improving management practices, and providing financial assistance to local agencies relating to the training of law enforcement officers.

### PROGRAM DESCRIPTIONS

#### 10 - STANDARDS

The Standards Program establishes job-related selection and training standards for peace officers and dispatchers. It also provides management consultation to local law enforcement agencies. Activities include development of examinations and counseling local law enforcement agencies on ways to improve management practices.

The Program conducts applied research in the areas of peace officer selection and training, operational procedures and program evaluation to meet statutory requirements and to provide management guidance to local law enforcement agencies. It also facilitates the development and implementation of new programs for local agencies by serving as a clearinghouse of

successful program information. Finally, it conducts accreditation and peace officer feasibility studies.

### 20 - TRAINING

The Training Program increases the competence of law enforcement personnel by developing and certifying courses that meet identified training needs. This activity requires scheduling and quality control of such courses, and assisting law enforcement agencies in presenting necessary training and career development programs to their officers. The Commission assesses training on a continuing basis to ensure that evolving training needs are met. The curricula cover a wide variety of topics necessary to satisfy statutory and regulatory mandates, maintain competence in police work, and address the training needs of law enforcement agency personnel. Curricula content is updated regularly. The Program also presents advanced training for law enforcement supervisors and executives through its Command College and the Supervisory Leadership Institute, and for trainers through the Basic Academy Instructor Certificate Program and the Instructor Development Institute. Other specialty programs include the Institute of Criminal Investigation.

Job-related selection and training standards for peace officers and dispatchers, established by the Standards Program, are enforced through inspections of local agencies receiving state aid to ensure they are adhering to minimum state standards.

### 30 - PEACE OFFICER TRAINING

The Peace Officer Training Program provides financial assistance to participating jurisdictions for instructional costs associated with selected training courses. Funding is also provided for the cost of student travel and per diem expenses associated with training presentations and for necessary overtime to enable line officers to receive in-service training in areas of critical need. To encourage and assist local law enforcement agencies to meet and maintain minimum standards in the selection and training of law enforcement officers, the Commission provides financial assistance to all 58 counties, approximately 346 cities, and numerous specialized districts and local agencies which have agreed to meet the Commission's standards.

### 8420 State Compensation Insurance Fund

The State Compensation Insurance Fund (State Fund) is a public enterprise fund established by the State of California through legislation enacted in 1913 to provide an available market for workers' compensation insurance to employers located in California. The State Fund is governed by a Board of Directors with authority comparable to that of the governing body of a private insurance carrier.

The State Fund's objective is to serve all California employers as an efficient and fairly priced industry leader in workers' compensation insurance, and it competes with other insurance companies. The State Fund is self-supported with revenues from premiums written and from investment income. It does not receive any financial support from the state, and the state is not liable for any obligations of the State Fund. Almost all of the State Fund's employees are civil servants.

Separate from its insurance business, the State Fund has been engaged by the Department of Personnel Administration to provide workers' compensation claims administration services for legally uninsured departments, agencies, boards, commissions, or other subdivisions of state government under a Master Agreement. Under this agreement, the State Fund pays compensation benefits to injured workers and medical benefits to health providers, and is reimbursed by state agencies for amounts paid plus service fees equal to the costs of these services.

These commodities are marketed fairly for all Californians and produced with responsible environmental stewardship.

The goals of the California Department of Food and Agriculture are to:

- Ensure that only safe and quality food reaches the consumer.
- Protect against invasion of exotic pests and diseases.
- Promote California agriculture and food products both at home and abroad.
- Ensure an equitable and orderly marketplace for California's agricultural products.
- Build coalitions supporting the state's agricultural infrastructure to meet evolving industry needs.

Since Department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Food and Agriculture's Capital Outlay Program see "Infrastructure Overview."

### PROGRAM DESCRIPTIONS

#### 11 - AGRICULTURAL PLANT AND ANIMAL HEALTH; PEST PREVENTION; FOOD SAFETY SERVICES

The objective of this program is to prevent the introduction and establishment of serious plant and animal pests and diseases to California and protect the safety of California's dairy products and meat and poultry products exempt from Federal inspection. In particular, the program is focused on pests and diseases that can: (1) be transmitted to humans, (2) inflict catastrophic financial loss on California's farmers, ranchers, and associated businesses, (3) have severe negative impact on the environment, or (4) adversely affect the supply of agricultural products to the consumer.

#### 21 - MARKETING; COMMODITIES AND AGRICULTURAL SERVICES

California agriculture produces over 350 different crops, which enter state, national, and international commerce. The objectives of this program are to assure orderly domestic and international marketing of safe and quality agricultural commodities, consumer protection, fair pricing practices, industry-supported grading services, and standards of measurement which provide a basis of value comparison, fair competition in the marketplace, and quality of conventional and alternative fuels and automotive products.

This program also provides support to governmental agencies needing chemical or product determinations by providing accurate and timely chemical analyses.

#### 31 - ASSISTANCE TO FAIRS AND COUNTY AGRICULTURAL ACTIVITIES

This program provides fiscal and policy oversight to the network of California fairs.

The state has a network of 78 fairs including county fairs, citrus fruit fairs and District Agricultural Associations. State support of these local fairs includes year-end financial statement review and a review of the annual audit.

#### 41 - EXECUTIVE, MANAGEMENT AND ADMINISTRATIVE SERVICES

Executive and Management Services include the executive leadership of the Secretary's Office. The Secretary's Office sets priorities and policies to protect, support, and promote agriculture in the State of California, as well as helping to protect the health and welfare of the public and the environment.

Administrative Services provides centralized administrative support to the Department through fiscal operations, employee-employer relations, personnel management, employee development, and general business services.

#### 51 - GENERAL AGRICULTURAL ACTIVITIES

This program provides the fiscal and policy oversight of the federal grants awarded that promote California agriculture. In addition, this program serves as the central point of contact for logistical coordination of all departmental resources, provides industry and agency coordination on environmental issues affecting agriculture, and provides centralized communications to our agricultural industry, including Agricultural Commissioners and the statewide fairgrounds.

This program also partially reimburses counties for carrying out agricultural programs authorized by the Food and Agricultural Code under the supervision of the California Department of Food and Agriculture.

\* Dollars in thousands, except in Salary Range.

## 8660 Public Utilities Commission

The California Public Utilities Commission (PUC) regulates critical and essential services such as privately owned telecommunications, electric, natural gas, and water companies, in addition to overseeing railroad/rail transit and moving and transportation companies. The PUC is the only agency in the state charged with protecting private utility consumers. As such, the PUC is responsible for ensuring that customers have safe, reliable utility service at reasonable rates, protecting against fraud, and promoting the health of California's economy, which depends on the infrastructure the utilities and the PUC provide.

**PROGRAM DESCRIPTIONS****10 - REGULATION OF UTILITIES**

The fundamental objectives of this program include ensuring customers have safe, reliable utility service at reasonable rates, protecting against fraud, and promoting the health of California's economy, which depends on the infrastructure the utilities and the PUC provide. Californians spend more than \$38 billion annually for services from industries regulated by the PUC. This includes 11 electricity utilities (80 percent of electric load in California), 1,821 telecommunications carriers, 156 water and sewer utilities, and 6 natural gas utilities, and over 3200 small mobile home park and propane operators.

The Commission oversees the safety of electric, communications, natural gas, and propane gas utility systems and also performs operation and maintenance audits, outage inspections and investigations of incidents at electric generation facilities. The PUC safety functions include both backward looking investigation and analysis of safety incidents and utility performance, and forward looking risk assessment to identify needed regulatory rule reform and to ensure that limited ratepayer funding is directed at the most critical public safety challenges.

The program also includes the Division of Ratepayer Advocates, which advocates on behalf of public utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. The Division balances the interests of all ratepayers to ensure all consumers are treated equitably. The Division is funded by the Public Utility Ratepayer Advocate Account, which funds are utilized exclusively by the Division in the performance of its duties as determined by the director.

In the area of energy regulation, the PUC has a number of programs in place to help consumers, the economy, and the environment. The PUC is working to protect the environment from climate change. The PUC is also committed to renewable power and is working to implement renewable energy goals for utilities. Through the California Solar Initiative, the PUC will provide more than \$2 billion in incentives over the next several years for solar installations.

To ensure consumers have access to sufficient information to make informed telecommunications choices, the PUC created a Telecommunications Consumer Education Initiative called Cal Phone Info, designed to help consumers navigate the increasingly competitive telecommunications market and to learn how to avoid becoming victims of consumer fraud. Cal Phone Info provides consumers with information on issues such as understanding phone bills, illegal practices, buying wireless telephone service, choosing telecommunications companies and services, prepaid phone cards, and avoiding telephone fraud and misleading advertising.

The Commission also administers issuing state franchises to provide video service in California. The Commission is responsible for monitoring video service provider compliance with the anti-discrimination, anti-redlining, and build-out requirements of California's state franchise law.

**15 - UNIVERSAL SERVICE TELEPHONE PROGRAMS**

The PUC oversees nearly \$1 billion in telecommunications consumer programs including the California Lifeline Fund, California Teleconnect Fund, Deaf and Disabled Telecommunications Program, and California High Cost Funds, all of which provide much-needed services to consumers and communities. The objectives of these 'universal telephone service' programs include: (1) ensuring basic telephone service remains available and affordable to all Californians regardless of geography, language, cultural, ethnic, physical or income differences; (2) encouraging consumer choice among competitive telephone companies; (3) modifying, as necessary, the basic telephone service definition to incorporate new technology for all residential subscribers; and (4) ensuring consumers have access to sufficient information to make informed choices about

basic service and universal lifeline telephone services. Specifically, the California High-Cost Fund A program provides supplemental funding to 17 small local telephone companies to minimize rate disparities, which otherwise would occur in basic telephone service costs between rural and metropolitan areas. The California High-Cost Fund B program provides supplemental funding to large telephone companies to minimize disparities which otherwise would occur between high-cost and metropolitan areas. The Deaf and Disabled Telecommunications program provides assistance to deaf, hearing impaired and disabled residents. The Payphone Service Providers program provides payphones to the general public at no charge in the interest of public safety and at locations where payphones otherwise would not be found. The California Teleconnect Fund program provides discounted telecommunication services to qualifying schools, libraries, hospitals and community-based organizations. The California Advanced Services Fund Program encourages the deployment of broadband infrastructure in unserved and underserved rural and urban areas of California.

### 20 - REGULATION OF TRANSPORTATION

The PUC oversees the safety of all railroads, six major rail transit agencies, five smaller transit systems, and more than 16,000 public and private crossings. The PUC's specially trained and federally certified inspectors inspect all tracks (annually), all train equipment and facilities (semi-annually), investigate all rail accidents resulting in loss of life and property damage, and ensures the safe transportation of hazardous materials. The PUC has exclusive authority to approve or disapprove all highway-rail crossings. The Transportation program also oversees passenger carriers, including privately owned for-hire passenger transportation companies and household goods carriers. The program regulates rates and services, issues certificates and other licenses, and enforces safety standards and insurance requirements.

## 8780 Milton Marks "Little Hoover" Commission on California State Government Organization and Economy

The Milton Marks "Little Hoover" Commission on California State Government Organization and Economy is the state's only independent and citizen-based oversight mechanism. It conducts four to five comprehensive reviews of executive branch programs, departments, and agencies each year and recommends ways to improve performance by increasing efficiency and effectiveness with existing resources. The Commission is statutorily responsible for analyzing and making recommendations to the Legislature on all Governor reorganization plans.

The Commission is composed of two members of the Senate, two members of the Assembly, and nine unpaid citizen members - five appointed by the Governor and four appointed by the Legislature.

Because of the Commission's independence, the Legislature charged it with oversight of the California State Auditor, including contracting with an independent auditor for annually examining the State Audit Fund.

**8855 California State Auditor's Office**

The California State Auditor (State Auditor) promotes the effective and efficient administration and management of public funds and programs by providing citizens and government nonpartisan, accurate, and objective assessments of state and local governments' financial and operational activities. As the independent auditor, the State Auditor is the only state entity that the law grants full access to all records of state and local agencies, special districts, school districts, and any publicly-created entity. The State Auditor conducts performance, financial, or compliance audits that are either mandated by statute or requested by the Legislature through the Joint Legislative Audit Committee (JLAC). Further, the State Auditor is responsible for annually conducting California's statewide Single Audit—a combination of the independent audit of the State's basic financial statements and the independent audit of numerous federal programs administered by California. The Single Audit is federally required as a condition for California to receive billions in federal funds each year. In 2011-12, the Legislature enacted a program that requires the State Auditor to conduct pilot audits of the procurement practices of six trial courts in 2012-13 and to thereafter audit the procurement practices of each trial court once every four years. In addition, the State Auditor is required to audit the procurement practices of the Appellate Courts, the Administrative Office of the Courts, and the Habeas Corpus Resource Center on a biennial basis.

The State Auditor also identifies statewide issues or specific government entities as at high risk for waste, fraud, abuse, and mismanagement or that have major challenges related to efficiency and effectiveness. The State Auditor has the authority to conduct evaluations of those issues and entities identified as being high risk. Chapter 451, Statutes of 2011 (AB 187), authorizes the State Auditor, to the extent resources are available, to identify local government agencies—including city, county, or special districts or publicly created entities—as at high risk for the potential of waste, fraud, abuse, or mismanagement or that have major challenges associated with their economy, efficiency, or effectiveness. Further, if approved by JLAC, the State Auditor can audit local entities identified as being high risk.

Additionally, under the California Whistleblower Protection Act, the California State Auditor's office has broad authority to perform independent investigations into allegations of improper governmental activities by state and court employees or state agencies and courts. The State Auditor's office administers California's Whistleblower Hotline that enables the public to report allegations of improper acts committed by the courts, state agencies, departments, or employees, as defined by law.

The Voters FIRST Act, approved by voters in November 2008 as Proposition 11, requires the State Auditor to initiate an application process for selecting the members of a 14-member Citizens Redistricting Commission (Commission) every 10 years. The State Auditor develops regulations to implement the application and selection process of the Commission and conducts comprehensive outreach to prospective applicants to serve on the Commission.

### PROGRAM DESCRIPTIONS

#### 10 - ANNUAL FINANCIAL PLAN

To ensure the financial integrity of the state through the planned allocation of state resources, the Department of Finance advises the Governor on the fiscal condition of the state and prepares the annual Governor's Budget. The Governor's Budget contains past year actual expenditures and revenues, current year estimated expenditures and revenues, and proposed expenditures and estimated revenues for the next fiscal year. After the budget is enacted, the Department of Finance assists in the administration of the budget. The Department of Finance also provides fiscal analyses of bills introduced in the Legislature and makes recommendations to the Governor.

#### 15 - FINANCIAL INFORMATION SYSTEM FOR CALIFORNIA (FI\$Cal) PROJECT SUPPORT

The Department of Finance is one of four partner agencies responsible for the development, implementation, utilization, and maintenance of an integrated statewide financial management system, FI\$Cal. This program includes Department of Finance subject-matter experts assigned to the FI\$Cal Project.

#### 20 - PROGRAM AND INFORMATION SYSTEM ASSESSMENTS

The Department of Finance systematically reviews and evaluates state-administered and financed programs. The Office of State Audits and Evaluations assists the Director of Finance in fulfilling the statutory responsibilities for supervision over all matters concerning the financial and business policies of the state by conducting financial audits and by performing critical examinations of state programs and policies.

#### 30 - SUPPORTIVE DATA

This program includes a variety of information systems and services. The budget support systems provide information to decision-makers throughout the budgetary process. The operation and management of the automated California State Accounting and Reporting System (CALSTARS) is intended to provide a uniform and complete accounting system for state agencies. The Fiscal Systems and Consulting Unit develops and maintains statewide fiscal and accounting policies and provides fiscal and accounting advice and consultation to all state departments. Basic and applied economic and tax research functions support the revenue estimates required for the development of the state financial plan, for the analysis of financial legislation, and the evaluation of economic trends or other fiscal developments which affect the state. Basic and applied demographic research functions provide data to support the workload estimates of state agencies.

#### 35 - AMERICAN RECOVERY AND REINVESTMENT ACT OVERSIGHT

\* Dollars in thousands, except in Salary Range.

## 8860 Department of Finance - Continued

Pursuant to the American Recovery and Reinvestment Act (ARRA), California received billions of dollars in new federal funds and tax benefits. The Governor created the California Recovery Task Force (Task Force) to take the lead responsibility in helping to ensure our state receives the optimal benefit from ARRA and that funds are deployed strategically and in a manner consistent with federal requirements. This program supports the Task Force.

### 37 - LOCAL GOVERNMENT UNIT

The Department of Finance is responsible for the oversight activities associated with the dissolution of redevelopment agencies. To facilitate this effort, the Department of Finance established a Local Government Unit whose objective is to protect core public services and ensure proper collection of former redevelopment agency tax increment and liquidation of property assets for distribution to local taxing entities.

## 8880 Financial Information System for California

The Financial Information System for California (FI\$Cal) Project is a partnership of four control agencies: the Department of Finance, the State Controller's Office, the State Treasurer's Office, and the Department of General Services. FI\$Cal will provide the state with a single integrated financial management system that encompasses budgeting, accounting, procurement, cash management, and financial management and reporting. This "Next Generation" project, through the adoption of best business practices, will reengineer business processes; improve efficiency; enhance decision making and resource management; and provide reliable, accessible, and timely statewide financial information allowing the state to be more transparent.

**8940 Military Department**

The Military Department is responsible for the command, leadership and management of the California Army and Air National Guard and five other related programs. The purpose of the California National Guard is to provide military service supporting this state and the nation. The three missions of the California National Guard are to provide: (1) mission ready forces to the federal government as directed by the President, (2) emergency public safety support to civil authorities as directed by the Governor, and (3) support to the community as approved by proper authority. The Military Department is organized in accordance with federal Departments of the Army and Air Force staffing patterns. Military Department Youth Programs serve California communities and families by delivering national level, high-quality educational support programs, in partnership with the educational community, within a military, academic-structured environment. In addition to the funding that flows through the State Treasury, the Military Department also receives Federal Funding directly from the Department of Defense. A special display titled "Other Federal Funds" shows the funding received from this source.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Military Department's Capital Outlay Program, see "Infrastructure Overview."

The federal government provides virtually all supplies, equipment, transportation, subsistence, and support services necessary for training, deployment, and commitment of the Air National Guard.

#### 30 - OFFICE OF THE ADJUTANT GENERAL-ADMINISTRATION

This program provides strategic methodology and organization to fulfill the mission of the California Military Department to support our communities and nation and ensure the public safety of our citizens. This program governs the joint activities and performance of the Military Department in areas such as personnel and fiscal resource management, judicial affairs, internal controls, facility management, youth education, and information technology.

#### 35 - MILITARY SUPPORT TO CIVIL AUTHORITY

The Military Support to Civil Authority Program supports the emergency needs of civil authority when called to duty by the Governor. To assure a timely and effective response of Military Department resources, policies and procedures governing their use are continuously reviewed and updated. Liaison and coordination is maintained with federal, state, and local agencies so that mutual understanding and unity of purpose is assured during an emergency. The objectives of this program are to plan and prepare for the deployment of Military Department personnel and equipment to support civil authority when called to state service by the Governor due to domestic emergency or natural disaster and to provide the state, county, city, and other public agencies with the coordination necessary to ensure a timely, organized response.

Grant funding from the Office of Emergency Services (OES) supports the California National Guard participation in the OES Training and Exercise program for state and local first responders involving "All Hazard" incidents. This program is a critical aspect of the overall State Homeland Security Strategy, and the state partnership with the United States Department of Homeland Security, Department of Preparedness, Response and Recovery.

The Temporary Emergency Shelter Program provides armories statewide for local officials to provide emergency shelter programs for homeless persons during severe weather conditions.

#### 40 - MILITARY RETIREMENT

This program provides retirement benefits, similar to those provided by the federal military services, to persons who entered state active duty prior to October 1, 1961, and have served 20 or more years, at least 10 of which have been on state active duty or have been separated for physical disability. All other permanent state employees and service members are covered by the Public Employees' Retirement System.

#### 50 - CALIFORNIA CADET CORPS

The California Cadet Corps founded in 1911 by the California Legislature and then-Adjutant General BG Edwin B. Forbes is a school-based, applied leadership program conducted within a military framework and is designed to provide maximum growth and leadership opportunities for cadets from the elementary through the high school levels. The Cadet Corps provides applied leadership opportunities for cadets by allowing them to conduct training for junior cadets, to perform as leaders in their cadet military units, and by demonstrating proper behavior and citizenship at their schools and in their communities. As part of their training, cadets provide assistance and support to the school and community. The most recent independent evaluation of the Cadet Corps proves conclusively that cadets stay in school, contribute positively to school safety, and do not join gangs. Statistics indicate that cadets do better academically than their peers, have better attendance, fewer suspensions and expulsions, do better on the California Physical Fitness Test, and do significantly better on the state's academic standardized reporting and assessment (STAR) tests.

#### 55 - STATE MILITARY RESERVE

The State Military Reserve is an 1,100 member volunteer organization that is a component of the California Military Department whose mission is to support the California Military Department and the California National Guard during training, preparation for mobilization, demobilization, and defense support to civil authorities during periods of state emergencies and disasters.

### 65 - CALIFORNIA NATIONAL GUARD YOUTH PROGRAMS

The California National Guard Youth Programs are responsible for the command, leadership, and management of five unique youth programs located throughout California. These programs are financed with federal, state and local funds. The California National Guard is involved in youth programs because political and community leaders at the federal, state, and local levels recognize that the National Guard brings structure, discipline, and effective leadership training methods to the educational setting. These programs include the Grizzly Youth Academy, Sunburst Youth Academy, Oakland Military Institute, STARBASE Academy, Sacramento and STARBASE Academy, Los Alamitos.

**8950 Department of Veterans Affairs**

The California Department of Veterans Affairs promotes and delivers innovative services that California veterans and their families need to be successful and productive in the most efficient and cost-effective manner through aggressively collaborating with key stakeholders and partners.

More specifically, the Department:

- Provides California veterans and their families with aid and assistance in presenting their claims for veterans' benefits under the laws of the United States.
- Provides California veterans with beneficial opportunities through direct low-cost loans to acquire farms and homes.
- Provides the state's aged or disabled veterans with rehabilitative, residential, and medical care and services in a home-like environment at the California Veterans Homes.

This mission is based upon the philosophy that benefit programs for veterans fulfill necessary, proper, and valid public purposes by promoting patriotism, by recognizing and rewarding sacrifice and service to country, and by providing needed readjustment assistance to returning veterans and their families, whose lives were interrupted when they responded to their country's call to military service.

Since department programs drive the need for infrastructure investment, each program has a related capital outlay program to support this need. For the specifics on the Department of Veterans Affairs' Capital Outlay Program see "Infrastructure

The loan provisions of this program are similar to those of the Cal-Vet Loan Program. Responsibility for administering this program was transferred to the Department of Veterans Affairs effective January 1, 1997.

### 45 - VETERANS MEMORIALS

This program is responsible for the beautification and enhancement of the California Mexican American Veterans Memorial on state grounds through private contributions. The money in the fund is continuously appropriated, without regard to fiscal year.

This program also supports the Veterans Registry, which is part of the California Veterans Memorial. The provided contributions help to defray the costs of data entry and system management for the Registry and the reasonable costs that are incurred by the Department for administering the fund.

### 50 - GENERAL ADMINISTRATION

This program provides for the executive management of the Department's full range of programs and administrative support. Functions include budgeting, accounting, personnel, and business services. These costs are distributed to the major programs.

**9100 Tax Relief**

This budget provides funding for cities and counties to help defray the loss of revenue as a result of the Homeowners' Tax Relief Program, that provides California homeowners assistance through a \$7,000 exemption from property tax, and the Open Space Subventions Program, that provides tax relief to individuals who agreed to hold their land as open space under the Williamson Act of 1965. In addition, this budget receives loan repayments from individuals that participated in the Senior Citizens' Property Tax Postponement Program, prior to the suspension of this program in February of 2009.

### PROGRAM DESCRIPTIONS

#### 50 - HOMEOWNERS' PROPERTY TAX RELIEF

In order to reduce California taxpayers' property tax burden, the California Constitution exempts homeowners from paying property taxes on the first \$7,000 of the assessed value of their principal place of residence. The Constitution requires the state to reimburse local governments for revenues lost due to the homeowners' exemption.

#### 60 - SUBVENTIONS FOR OPEN SPACE

The Williamson Act permits cities and counties to enter into contracts with landowners to limit the use of land to agricultural, scenic, and open space purposes. Article XIII, Section 8, of the California Constitution permits land under such restrictions to be assessed at other than market value based on its limited uses. The state provides reimbursements to cities and counties to partially defray the loss of property tax revenues. The Department of Conservation administers this program.

#### 70 - SENIOR CITIZENS' PROPERTY TAX POSTPONEMENT LOAN REPAYMENTS

The Senior Citizens' Property Tax Postponement Program allowed eligible homeowners to defer payment of residential property tax. The state paid the deferred taxes to local governments on behalf of the participants, and placed a lien on their property to assure repayment when the property is sold or transferred. The Senior Citizens' Property Tax Postponement Loan Repayments Program captures repayments from individuals that participated in the Senior Citizens' Property Tax Postponement Program prior to the suspension of this program in February of 2009.

<sup>1</sup>Totals reflect Build America Bond subsidy.

<sup>2</sup>General Obligation bond expenditures include repayment of debt service for various departments funded by a series of bonds; however, the state may assign each maturity of the bonds to one or more departments, rather than having all of the debt allocated to a department mature proportionally across the entire maturity schedule. Regardless of the debt service allocated among departments, the aggregate debt service obligation of the state remains the same.

<sup>3</sup>Includes debt service paid through the Higher Education funding plan.

## 9610 Lease-Revenue Notes and Bonds

This budget is limited to those long-term lease arrangements, generally resulting in a capital acquisition or improvement, for which a bond or note has been issued as the underlying source of funds. This budget reflects expenditures for the appropriations necessary for the lease payments that are contained in the support budgets of the affected departments or agencies and may vary from this display because of reimbursements from bond surplus accounts. This display is intended to meet the needs of the financial community for summary information relating to lease-revenue debt. The proposed sales detailed in this budget are anticipated by the Department of Finance and the State Treasurer's Office.

## 9612 Enhanced Tobacco Settlement Asset-Backed Bonds

In accordance with Government Code section 63049.1, the Enhanced Tobacco Settlement Asset-Backed Bonds item appropriates \$1,000 and authorizes the Director of Finance to allocate up to \$200 million if tobacco settlement revenues are insufficient to pay the costs of debt service and operating expenses. While this authority was necessary to sell the Tobacco Settlement Revenue backed bonds, it is not anticipated that the General Fund will be required to make any payments.

## 9620 Cash Management and Budgetary Loans

Cash Management and Budgetary Loans account for the interest cost and related expenses to the General Fund for internal and external borrowing used to overcome normal cash flow imbalances during the fiscal year. Because receipts and disbursements occur unevenly throughout the fiscal year, the General Fund will need to borrow even though its budget is balanced. This short-term borrowing for cash flow purposes does not indicate fiscal weakness and may be preferable to carrying too large a reserve.

### PROGRAM DESCRIPTIONS

#### 10 - CASH MANAGEMENT

##### Internal Cash Management

Chapter 312, Statutes of 1907, authorized the transfers to the General Fund from certain specified funds (often referred to as "borrowable" funds) in the State Treasury System whenever the General Fund was exhausted. Those provisions, in slightly modified form, are now contained in Sections 16310 and 16418 of the Government Code. This authorization enables the General Fund to overcome normal cash flow imbalances throughout the fiscal year to a large extent. The use of these funds' money for General Fund cash flow purposes is largely transparent to most of these funds. This mechanism does not interfere with the day-to-day cash needs of the borrowable funds because of the implementation method. Generally, when a fund is designated as borrowable for General Fund cash flow purposes, it merely increases the amount of cash the State Controller's Office is authorized to borrow from the Pooled Money Investment Account (PMIA) when there is a General Fund cash shortage. For most of these funds, actual cash is not transferred out of the funds into the General Fund. The entire cash balances of these funds remain intact and completely available for the funds' purposes.

A State Agency Investment Fund (SAIF) Program was enacted pursuant to Chapter 142, Statutes of 2011 (Senate Bill 79, Government Code section 16330), to increase internal borrowable resources through the receipt of deposits from a state entity that is not required to deposit or invest funds in the PMIA. The minimum deposit or investment per participant is \$500 million and the maximum amount for the SAIF Program for all participants is \$10 billion.

##### External Cash Management

In addition, the courts have validated temporary external borrowing that meets the "appropriation doctrine". Under this doctrine, an obligation is not considered a debt or liability within the State Constitutional limitation on indebtedness (Section 1 of Article XVI) if an appropriation is made from existing funds or reasonably anticipated funds subject to appropriation. This doctrine was invoked in 1933 and 1936 to uphold the use of registered warrants (IOUs) during the Great Depression and again in 1971 to validate the State of California Notes provisions of Chapter 223, Statutes of 1971. The Notes provisions were invoked in 1971-72 in lieu of the more costly registered warrant authority used during the Depression and, like registered warrants, required the projected exhaustion of all internal sources of funds before being implemented. The Notes provisions were re-enacted by Chapter 10X, Statutes of 1983, and employed in 1982-83 and 1983-84.

In 1984-85, the state implemented a cash management program pursuant to Chapter 268, Statutes of 1984, which provided the flexibility to borrow from external sources prior to exhausting internal sources. Under this program, the use of external funds results in potential savings to the General Fund, as well as increased revenue to the various special funds from which the General Fund would have borrowed from pursuant to Sections 16310 and 16418 of the Government Code.

External sources of borrowing available to the state include revenue anticipation notes (RANs), revenue anticipation warrants (RAWs), and registered warrants (short-term IOUs). RANs and RAWs are short-term debt obligations issued in anticipation of receiving revenues in the near future.

Additional costs to the cash management program include, but are not limited to, costs to issue and redeem IOUs, and any other program measures necessary to effectively manage cash flow.

## 9620 Cash Management and Budgetary Loans - Continued

### Overall Program

Pursuant to Government Code Sections 12020 and 12021, accounts payable and receivable and cash flow statements for the past, current, and budget years are included as Schedule 5 in the Governor's Budget Summary. Neither cash receipts nor disbursements match revenues and expenditures presented elsewhere in this Budget. In order to reflect cash flow, budget data is converted to cash basis primarily by adjusting for cash collected by an agency but not yet recorded by the Controller and for accruals. Adjustments are also made to reflect statutory changes, anticipated legislative actions, and administrative actions.

The estimated current and budget year cash flows incorporate revenue and expenditure measures and assumptions reflected in this Budget, as well as cash management measures such as intra-year payment deferrals that are used from time-to-time to address low points during the fiscal year, as of the release of the Governor's Budget. These cash flows also include estimates of internal and external borrowing based on these measures and assumptions.

### 20 - BUDGETARY LOANS

The Budget Act authorizes budgetary loans from various funds and accounts to the General Fund. These loans are being repaid over multiple fiscal years. Unless otherwise specified in statute, the loans are being repaid with interest calculated at the Pooled Money Investment Account rate on the date of transfer.

## 9625 Interest Payments to the Federal Government

Pursuant to the Cash Management Improvement Act of 1990 (CMIA), the state will incur an interest liability to the federal government. The purpose of CMIA is to ensure greater efficiency, effectiveness, and equity in the exchange of funds between the federal government and the state. The major provisions of CMIA are: (a) federal agencies must make timely fund disbursements and grant awards to the state; (b) the state must minimize the time between the deposit of federal funds in the state account and the payout of the funds for program purposes; (c) the state is entitled to interest from the federal government from the time state funds are paid out for program purposes until federal funds are deposited in the state account; and (d) the federal government is entitled to interest from the state from the time federal funds are deposited in the state account until the funds are paid out for program purposes.

The federal assistance programs impacted by the CMIA are those programs that have \$272 million or more in federal fund expenditures. For the majority of these programs, state departments request federal funds in advance of the warrant (i.e., check) issuance. State departments use this funding technique because the State Constitution requires that the funds be deposited before the warrants are issued.

Interest payments to the federal government are due no later than March 31 each year. The payment will be for the interest liability incurred during the state's prior fiscal year.

### 9650 Health and Dental Benefits for Annuitants

This program provides funding for health and dental benefit services for retired state employees and their dependents.

The program began on January 1, 1962, with an employer contribution of \$5.00 per month toward the cost of a basic health plan. Since then, major medical plans, Medicare, and plans supplementing Medicare have been developed. Dental care was added in 1982.

The 2012-13 employer contribution for health premiums maintains the average 100/90 percent contribution formula established in Government Code Section 22871 for fully vested members. Under this formula, the state averages the premiums of the four largest health benefit plans in order to calculate the maximum amount the state contributes towards retiree health benefits. The state also contributes 90 percent of this average towards the health benefit costs of each of the retiree's dependents.

The retiree is responsible for paying all health benefit plan costs that exceed the state contribution. Premiums are determined on a calendar-year basis; therefore, the state contribution will vary during the fiscal year. The 2012 monthly contribution maximums are \$566 for a single enrollee, \$1,074 for an enrollee and one dependent, and \$1,382 for an enrollee and two or more dependents. The 2013 monthly contribution maximums are \$622 for a single enrollee, \$1,183 for an enrollee and one dependent, and \$1,515 for an enrollee and two or more dependents. Dental care premiums vary by plan and number of dependents.

Effective July 1, 2012, funding for health benefits for California State University annuitants is displayed in Organization Code 6645 under Higher Education. This funding was previously budgeted within Organization Code 9650.

## 9658 Budget Stabilization Account

Proposition 58, as approved by the voters in March of 2004, established the Budget Stabilization Account (BSA), and requires the State Controller to transfer a specified percentage of estimated General Fund revenues from the General Fund to the BSA. The Legislature may transfer, by statute, amounts in excess of the specified percentage to the BSA. In addition, the Governor, by executive order, may suspend the transfer to the BSA. Half of the funds transferred to the BSA will be used to retire Economic Recovery Bonds authorized in Proposition 57 (March 2004), up to \$5 billion in the aggregate.

### LEGAL CITATIONS AND AUTHORITY

#### PROGRAM AUTHORITY

Section 20, Article XVI of the Constitution of the State of California.

Control Section 35.50, Budget Act.

Control Section 35.60, Budget Act.

### MAJOR PROGRAM CHANGES

- Similar to the past five years, given the condition of the General Fund, the 2013-14 Governor's Budget proposes to suspend the transfer to the Budget Stabilization Account.

### PROGRAM DESCRIPTIONS

10 - Proposition 58, as passed by the voters March 2, 2004, established the Budget Stabilization Account (BSA) and requires the Controller to transfer a specified percentage of General Fund revenues, no later than each September 30, from the General Fund to the BSA as follows:

- For fiscal year 2006-07, one percent of estimated General Fund revenues.
- For fiscal year 2007-08, two percent of estimated General Fund revenues.
- Annually thereafter, three percent of estimated General Fund revenues.

Additionally, the Legislature may, by statute, direct the Controller to transfer into the BSA amounts in excess of the specified percentages. The Constitution also authorizes the Governor to reduce or suspend this transfer for any fiscal year

\* Dollars in thousands, except in Salary Range.

## 9658 Budget Stabilization Account - Continued

by executive order prior to June 1 of the preceding fiscal year. The transfer of moneys is not required in any fiscal year to the extent that the balance in the BSA would exceed five percent of the General Fund revenues estimate set forth in the budget bill for that fiscal year, as enacted, or eight billion dollars (\$8,000,000,000), whichever is greater. In each fiscal year, 50 percent of the funds transferred to the BSA, up to \$5,000,000,000 in the aggregate, is to be deposited in the Deficit Recovery Bond Retirement Sinking Fund Subaccount and continuously appropriated to the Treasurer to supplement the retirement of Economic Recovery Bonds approved by the voters at the same election. Other funds in the BSA may be transferred back to the General Fund by statute.

## 9670 Equity Claims of California Victim Compensation and Government Claims Board and Settlements and Judgments by Department of Justice

This budget reflects statewide expenditures for all equity claims against the state approved for payment by the California Victim Compensation and Government Claims Board and all settlements and judgments against the state sponsored by the Attorney General's Office. Payment of these claims is provided to claimants through the passage of special legislation. Each year, two equity claims bills are proposed by the California Victim Compensation and Government Claims Board and one or two settlements and judgments bills are proposed by the Attorney General's Office.

### PROGRAM DESCRIPTIONS

#### 10 - EQUITY CLAIMS

This program includes all claims approved by the three-member California Victim Compensation and Government Claims Board and referred to the Legislature in the omnibus claims bills for payment. The program provides an equitable procedure for the payment of the following categories of claims:

- Claims for which no appropriation has been made or for which no fund is available, but the settlement of which has been provided for by statute or constitutional provision.
- Claims for which the appropriation made or fund designated is exhausted.
- Claims for which settlement is not otherwise provided for by statute or constitutional provision.

The California Victim Compensation and Government Claims Board must submit special appropriation measures under Chapter 182, Statutes of 1976, at least twice during each calendar year. Current year expenditures for the payment of 2012-13 equity claims include funds appropriated by Chapters 156 and 357, Statutes of 2012.

#### 20 - SETTLEMENTS AND JUDGMENTS

This program includes claims paid through judgment and settlement bills sponsored by the Department of Justice each year. The claims are either judgments against the state or settlements approved by the Department of Justice pursuant to the authority provided in Government Code Section 948 et seq. Current year expenditures for the payment of 2012-13 judgments and settlements are appropriated by Chapter 351, Statutes of 2012.

## 9800 Augmentation for Employee Compensation

This budget reflects funding augmentation amounts for state employee compensation adjustments. If the Legislature previously appropriated money, through this budget, to pay for the economic terms of employee compensation in previous fiscal years, the funding for those economic terms is included in departments' budgets. When economic terms require funding not yet appropriated by the Legislature, those funds are included in this budget.

## 9818 Federal Levy of State Funds

The federal courts periodically issue judgments or "writs of execution" against the State of California requiring the state to make payments to the federal government. The writs and judgments provide the authority to the federal government to withdraw funds from the state bank accounts maintained by the State Treasurer's Office at the various state depository banks.

Each year the Budget Act authorizes the Department of Finance to identify specific appropriations or funds to charge when the federal government withdraws funds from state bank accounts. When no specific appropriation or fund can be identified, the withdrawals are charged to the unappropriated General Fund balance.

No levies were paid during the 2011-12 fiscal year and none have been paid through December 31, 2012.

### 9840 Augmentation for Contingencies or Emergencies

Each year, the Budget Act includes appropriation items in organization 9840 to be used to supplement department's appropriations that are insufficient due to unanticipated expenses or emergency situations. There are three separate appropriations, one for each fund type - General, special, and non-governmental cost funds. These appropriations are allocated to other departments by the Department of Finance based upon the determination of need.

**9885 Reserve for Liquidation of Encumbrances**

Encumbrances (commitments for the procurement of goods or services which have not yet been received by the state) are accrued as expenditures by departments at year-end and included in the expenditure totals of individual budget displays. This treatment is in accordance with the budgetary/legal basis of accounting.

Generally Accepted Accounting Principles (GAAP) require that encumbrances be reflected as a reserve against the General Fund balance and not as an expenditure, as in budgetary/legal basis accounting. Government Code Section 13306 and state policy require compliance with GAAP whenever it is in the best interest of the state. This budget reflects a statewide adjustment to reduce expenditures on a budgetary/legal basis by the encumbrance amounts to comply with GAAP. A reserve of fund balance for encumbrances for this same amount is shown in Summary Schedule 1 for the General Fund.

**COMPUTATION OF ENCUMBRANCE ADJUSTMENT**

The State Controller's Office accumulated a preliminary estimated General Fund encumbrance total of \$618,108,000 from 2011-12 year-end financial statements submitted by state departments. For budgeting purposes, encumbrances are estimated to be at the same level for the 2012-13 and 2013-14 fiscal years and are assumed to be liquidated (paid) within the next fiscal year. The Encumbrance Adjustment Table summarizes the methodology and the calculation for the encumbrance adjustment.

**9900 Statewide General Administrative Expenditures (Pro Rata)**

Central service agencies, such as Department of Finance, the State Treasurer, the State Controller, and Legislature, provide budgeting, banking, accounting, auditing, payroll, and other services to all state departments. The Pro Rata process apportions the costs of providing central administrative services to all state departments and funding sources that benefit from the services. Amounts apportioned to special funds for their fair share of central administrative services costs are transferred from the special funds to the General Fund and the Central Service Cost Recovery Fund.

Pro Rata charges to special funds are normally included in the appropriate departmental budgets. This budget item includes Pro Rata costs directly charged to special funds for those cases where appropriate funding was not provided for in departmental budgets.

## **9909 Health Insurance Portability and Accountability Act Compliance**

The federal Health Insurance Portability and Accountability Act (HIPAA): 1) improves portability and continuity of health insurance coverage for groups and individuals, 2) combats waste, fraud, and abuse in health insurance for health care delivery, and 3) simplifies the administration of health insurance. To accomplish these objectives, HIPAA requires specific national standards for coding and tracking medical information, administrative simplification, and security and privacy of individual patient records.
